Education

Savitribai Phule Pune University

Bachelor of Engineering in Computer Engineering (CGPA: 9.29/10)

Sept 2024 – May 2027

Pune, Maharashtra

Maharashtra State Board of Technical Education

Diploma in Computer Engineering (92.47%)

Jun 2021 – May 2024

Sangola, Maharashtra

Projects

SchemaPilot – AI Text-to-SQL Assistant | Python, FastAPI, PostgreSQL, SQLAlchemy, React.js

Aug 2026

- Developed a **schema-aware Text-to-SQL platform** using Python and FastAPI that converts natural-language queries into validated PostgreSQL queries through dynamic database schema introspection.
- Engineered an **ambiguity detection and clarification engine** to identify underspecified queries, maintain structured conversation state, and generate context-aware SQL queries.
- Implemented **read-only SQL validation, error recovery, query execution, and evaluation workflows** using Pydantic, SQLAlchemy, and PostgreSQL to improve query reliability and system robustness.

NexusMeet – Real-Time Video Conferencing Platform | React.js, WebRTC, Socket.IO, Node.js, Express.js

May 2026

- Developed a real-time video conferencing platform supporting **peer-to-peer audio/video, screen sharing, participant management, and live messaging** using WebRTC and Socket.IO.
- Implemented **WebRTC signaling** for SDP and ICE candidate exchange, establishing direct peer-to-peer connections between meeting participants.
- Built modular REST and real-time communication components with **Node.js, Express.js, and Socket.IO**, handling meeting events, participant state, and connection lifecycle.

Elevora AI – AI Interview Platform | React.js, Node.js, Express.js, MongoDB, Gemini API

Jan 2026

- Developed a full-stack interview preparation platform featuring **mock interviews, coding assessments, resume analysis, and personalized learning roadmaps** using the Gemini API.
- Implemented secure **JWT authentication, role-based access control, resume parsing, AI-driven evaluation, and RESTful APIs** with MongoDB and Express.js.
- Designed a responsive dashboard with **analytics, ATS resume scoring, interactive charts, coding problem management, and admin functionality** using React and Tailwind CSS.

Technical Skills

Frontend Technologies: HTML, CSS, Tailwind CSS, Bootstrap

MERN Stack: MongoDB, Express.js, React.js, Node.js, JavaScript

Backend Technologies: Java, C++, Python, FastAPI, REST APIs, LLM, JWT Authentication

AI / LLM: LLM Applications, Prompt Engineering, Structured Outputs, Gemini API, Pydantic

AI Development Tools: GitHub Copilot, Codex, Cursor, Claude Code, stitch Antigravity

Databases: MongoDB, MySQL

Deployment: Docker, Kubernetes, Linux, CI/CD

Development Tools: Git, GitHub, VS Code, Postman, Eclipse

Core CS: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Leadership / Extracurricular

Technical Coordinator

ICON Community Club & CESA Community Club

2026 – Present

MMIT, Pune & SPC, Sangola

Project Lead

DeptXPert Final Year Project

2024

Shivaji Polytechnic College, Sangola

Certifications

- BuildWithAI Bootcamp Google for Developers – Hack2skill
- AI-ML Virtual Internship – AICTE EduSkills, Google for Developers
- Java (Basic) Certification & Gold Badge in Java – HackerRank
- AI Prompts Fundamentals - Coddy
- Claude Platform 101 - Anthropic
- Introduction to Model Context Protocol - Anthropic
- Building with the Claude API - Anthropic
